

FOREWORD

The Reserve Bank of India regularly brings out the Report on Currency and Finance, which was traditionally considered as a comprehensive source and record of economic developments. The structure of this Report has been re-oriented since 1998-99 from just documenting the economic developments to a 'theme-based report'. The theme-based Report offers the professional economists working in the Bank, an opportunity to work on relevant topic every year and make incisive analysis of the theme both in the global and the Indian context and come out with an analytical Report offering possible policy solutions to the issues examined. The dissemination of these Reports to a wider section of the user-community is an important exercise. The Report pertaining to the period between 1935-36 and 1998-99 are available only in printed form. The Reports from 1999-2000 have been placed on the Reserve Bank's website. In these days of widespread use of information technology, it is felt useful to bring out the Reports in a single DVD. I hope this will be an invaluable collector's item among the policy makers and academia.

The digitization process of the Reports was undertaken by Shri Ashok Kapoor, Chief Archivist, Reserve Bank of India Archives and supported by the services of Smt. Sandhya Dhavale, Assistant Librarian, under the guidance of Shri K.U.B. Rao, Adviser, Department of Economic Analysis and Policy and Shri Sandip Ghose, Principal and Chief General Manager, College of Agricultural Banking, Pune. I place on record my deep appreciation of their efforts.

INTRODUCTORY NOTE

The annual data presented in this volume generally relate to financial year (April-March) except where otherwise specified. Since 1970-71 continues to be the base year for many official series such as index numbers, the data commencing with this year are presented. Data for the year 1975-76 being the mid-point for the decade 1970-1980 have been retained. The statistics in respect of the following statements are presented on calendar year basis since the source agencies compile such statistics on calendar year basis. Those are: (i) Estimated employment in public and private sectors (No. 12). (ii) Employment in public and private sectors in major industries and services (No. 13). (iii) Number of applicants on live register of employment exchanges (No. 14). (iv) Domestic production and imports of crude oil and petroleum products (No. 17). The statement 'Estimated Mid-year Population: 1971-80' which had replaced statement on 'Distribution of population, sex ratio, growth rate and population in States/Union territories' in this Report for 1980-81, continues to be presented with revisions in the relevant data. The statement 'Note forgeries' has been modified. As against data on 'Note forgeries' covering information on forgeries detected at the issue offices of the Reserve Bank published earlier, data now include forgeries, detected at branch offices of other banks as also note forgeries seized by police throughout the country. Data presented now are on calendar year basis whereas the data published in the earlier volumes of this Report were on financial year basis.

Effective September 25, 1975, the exchange rate of the rupee is determined on the basis of a basket of currencies of countries which are India's major trading partners, severing the earlier link with the Pound Sterling which, however, continues to remain India's intervention currency. In view of sharp fluctuations in foreign currency markets, the permissible margin for the variation in the value of rupee was widened from 2.25 per cent on either side to 5 per cent with effect from January 30, 1979. The revision effected in the rupee's exchange rate *vis-a-vis* the Pound Sterling are given in a *seperate* statement No. 117 in this volume.

Explanatory notes in respect of certain statements are given at the end of this volume under 'Notes on the Statements'. Wherever necessary, the figures have been rounded off to the nearest final digit in the Statements. For this reason, the constituent items may not necessarily add up to the total.

A line drawn between two consecutive rows/columns indicates that the figures given after the line are not comparable with those preceding it.

The following symbols have been used in this volume:

- .. = Figure is not available.
- = Figure is nil or negligible.
- 1 lakh = 100,000.
- 1 million = 10 lakhs.
- 1 crore = 10 millions.

Note : 1. These annual estimates are based on annual series as on 1st March, 1901-1981, which has been made by breaking the decadal exponential growth rates into annual using Newtons Co-efficients. This method could not be used in case of Arunachal Pradesh as data for only three censuses was available. Arunachal Pradesh estimates have been done by using exponential rate of growth between 1971-81. These are provisional and may be revised.

2. The aggregate over the States and Union Territories will not exactly tally with All-India which has been calculated directly. The differences however, are very minor.

[@] Relates to 1981 Census and not to mid-year estimates.

Note: (1) The index numbers for the four groups viz., (i) Basic Industries, (ii) Capital Goods Industries, (iii) Intermediate Goods Industries and (iv) Consumer Goods Industries have been derived in R B I by combining the indices for the individual industries, constituting each group/sub-group, using the respective weights. Weights of individual industries may not add to that of group as only selected industries are shown. The General Index may not always be strictly derivable from the constituent group indices as the former takes into account the latest revisions advised by the Central Statistical Organisation.

Notes : 1. Averages are of closing quotations for working days. Figures in brackets indicate the prices in rupees. These are per 10 grammes of standard gold and per kilogram of silver as in the case of Bombay quotations.

2. Quotations in dollar cents per ounce for 1970-71 are converted into rupees per 10 grammes per kg. at the official exchange rate and for the later years at the cross rates based on the daily average of spot buying and selling rate of U.S. dollar in London. In converting the foreign prices into rupees, the rupee value reflects the valuation changes effected from the above time.

3. The conversion factor is 1 ounce = 0.0311035 kg. † Based on morning fixing.

‡ Based on closing quotations; include nominal quotations also.

Notes :

1. Comparable data were last published in the Report on Currency and Finance, 1979-80.

2. Data from April 1982 to October 1982, February 1983 and April 1983 do not represent correctly all the transactions actually put through the Reserve Bank of India during the period.

3. On the establishment of NABARD on July 12, 1982, certain assets and liabilities of the Reserve Bank were transferred to NABARD, necessitating some reclassification of aggregates in the sources of reserve money from that date.

* Represents investments in bonds/shares of financial institutions, loans to them and holdings of internal bills purchased and discounted. Excludes, since the establishment of NABARD, its refinancing to banks.

@ With the establishment of NABARD, loans and advances granted by the Reserve Bank to state co-operative banks and regional rural banks under Section 17 [except sub-clause (a) of clause (4)] of the Reserve Bank of India Act, 1934, have become loans and advances granted by the NABARD. These are included in Col. (3) and correspondingly excluded from Col. (2).

† Data pertain to March 31. + Provisional.

Notes: 1. Data do not cover Union Territories with legislatures. Data in respect of States relate to 22 States. Data for Sikkim and Assam for 1980-81 and 1981-82 respectively, relate to Revised estimates.

2. The Figures from 1975-76 onwards in this Statement are not strictly comparable with those for 1970-71 due to changes in accounting classification of budget heads.

3. Figures for receipts and expenditure in the Statement are based on the budget documents of Central and State Governments as adjusted for Centre's grants and loans to States and for the States' interest payments and loan repayments to the Centre on the basis of data available in Central budget, so as to avoid double counting. Thus, (i) Revenue receipts of the States and Revenue expenditure of the Centre are adjusted for grants from the Centre to States; (ii) Revenue expenditure of the States and Revenue receipts of the Centre are net of interest payments to the Centre by the States; (iii) Capital receipts of the States and Capital disbursements of the Centre are adjusted for loans from the Centre to the States and (iv) Capital disbursements of the States and Capital receipts of the Centre are net of repayment of loans by the States to the Centre.

4. Capital receipts of the States are also adjusted for net receipts/repayments of ways and means advances and overdrafts from/to the Reserve Bank of India. The data given in the State budgets have been used.

5. Figures in brackets are percentages to Gross Domestic Product at current market prices.

(a) Excludes Treasury Bill Receipts (net).

- Notes: 1. Gold is valued at Rs. 84.39 per 10 grammes. The increases in gold holdings by Rs. 5.27 lakhs in 1976-77, Rs. 5.29 lakhs in 1977-78 and Rs. 5.21 lakhs in 1979-80 are due to restitution of gold by the IMF to India. Of the increase in gold holdings by Rs. 26.41 lakhs in 1978-79, Rs. 5.28 lakhs is due to restitution of gold by the IMF and the remaining amount of Rs. 21.13 lakhs is on account of purchase of gold under India's entitlement in respect of profits from the sales of the Fund's gold for the benefit of developing countries. The rise of Rs. 87 lakhs in 1980-81 is on account of gold received by the Reserve Bank under the procedure for repayment of National Defence Gold Bonds, 1980.
2. All foreign exchange holdings are valued at par/central rates upto June 1972, except for the holdings of Canadian dollars from June 1970 to June 1972 which are valued on the basis of the monthly averages of spot buying and selling rates in New York, and the holdings of Deutsche marks from May to November 1971 and of yen and sterling from September to November 1971 which are valued on the basis of the monthly averages of spot buying and selling rates in London. From July 1972 holdings in sterling are valued at the average of the Bank's spot buying and selling rates; all other foreign exchange holdings are valued on the basis of the monthly averages of the spot buying and selling rates in London from July 1972 to April 1974, and on the basis of the averages of spot buying and selling rates in London from May 1974.

Statements 43 and 44 :

Ownership holding referred to in the statement relating to Primary Agricultural Credit Societies (PACS) means the total land holding of a cultivator and not that part of a holding which is actually under cultivation or that which has been charged or mortgaged to the Society. Similarly, in the case of C.L.D.Bs. and P.L.D.Bs. ownership holding refers to the total land holding of the concerned cultivator and not the part of holding which is actually

mortgaged to the Primary/State Land Development Bank.

Agricultural labourers refer to those having a homestead and earning 50 per cent or more of their income from activities connected with agriculture including animal husbandry such as, dairy and poultry. The remaining categories of members, e.g., artisans, traders, etc., are to be reported under 'Others'.

Statement 45 :

As at the end of December 1983, the number of Regional Rural Banks had grown upto 150 covering 265 districts through a network of 7795 branches throughout the country. It is proposed to cover all the districts in the country with Regional Rural Banks by the end of VII Five Year Plan. Total deposits of 150 RRBs aggregated to Rs. 667.85 crores as compared to Rs. 502.26 crores a year ago, an increase of 35 per cent in the year. The average deposits per branch and per account worked out to Rs. 8.70 lakhs and Rs. 691. Average amount per account indicates the class of society served by these banks and the efforts that might have gone in mobilising these deposits from hitherto untapped sources located in the interior and far-flung rural areas. During the year ended December 1983, RRBs had disbursed an amount of Rs. 151.36 crores among 7.84 lakhs beneficiaries under Integrated Rural Development Programme (IRDP) of Government of India meant for upliftment of poorest among the poor in their area of operation.

Total outstanding advances stood at Rs. 750.84 crores as compared to Rs. 577.11 crores a year ago, an increase of 30 percent over the previous year. Average advances per branch and per account worked out to Rs. 9.63 lakhs and Rs. 1670 respectively.

As on 31-12-1983, overdue advances amounted to Rs. 191.72 crores which formed 25.5 percent of the total outstanding advances on that date. As compared to December 1982, over-dues in December 1983 had gone up slightly from 22.2 percent to 25.5 percent of the total outstanding advances.

Statement 47 :

The data cover the number and amount of cheques, drafts, bills, interest warrants, payment orders, etc., which pass through the clearing houses, including the documents returned unpaid. Data do not cover cheques cashed over the counter, out-station cheques

collected directly without passing through the clearing houses and transfer transactions.

Figures in the column for 'Other Centres' and consequently for the column 'All Centres' are not strictly comparable as the number of centres included under 'Other Centres' varies from time to time consequent upon the opening of new centres, etc.

(2) Call Money Rates

(i) The call money rates are the weighted arithmetic averages of the rates on which money is accepted and reported by selected scheduled commercial banks at Bombay,

Calcutta and Madras, the weights being proportional to the amount of money accepted during the period by the respective banks. Deposits requiring prior notice of any type for repayment are excluded.

(ii) As a follow-up of the Reserve Bank's decision to fix the maximum lending rate charged by commercial banks at 16.50 per cent effective from March 15, 1976, the Indian Banks' Association issued a directive to its members asking them not to demand or pay more than 12.50 per cent per annum on any inter-bank borrowings with effect from March 29, 1976. Subsequently, following the changes made by the Reserve Bank in the interest rate structure of banks, the Indian Banks' Association revised the ceiling rate on inter-bank call money transactions from time to time as follows: (a) 12.50 per cent to 10.00 per cent with effect from June 15, 1977, (b) 10.00 per cent to 8.50 per cent with effect from March 9, 1978 and (c) 8.50 per cent to 10.00 per cent with effect from April 14, 1980.

Changed from 14.00-16.50 per cent to 14.00-16.00 per cent from May 16, 1975, from 14.00-16.00 per cent to 13.00-15.00 per cent from March 1, 1978, from 13.00-15.00 per cent to 18.00-19.50 per cent from June 1981, and to 17.50-18.00 per cent from April, 1983.

(d) Deposit rates were based on Inter-Bank Agreement upto September 1964 and on the Reserve Bank's directives thereafter. Deposit rates given here relate to (i) banks with demand and time liabilities (DTL) of Rs. 50 crores and above and foreign banks upto July 22, 1974, (ii) all banks between July 23, 1974 and end-January 1975 and (iii) banks with DTL of Rs. 25 crores and above from February 1, 1975.

(e) (i) Commercial banks which are authorised to deal in foreign exchange and which accept term-deposits having a maturity period of one year and above under the Foreign Currency (Non-Resident) Account Scheme and Non-Resident (External) Rupee Account Scheme shall pay, on such deposits, interest of 2 per cent per annum above the rates specified for local deposits.

(ii) Scheduled commercial banks with DTL upto Rs. 50 crores were allowed to pay an additional interest of between 1/8 percentage point and 1/2 percentage point per annum on fixed deposits of all maturities upto July 22, 1974. This concession was withdrawn from July 23, 1974. From February 1, 1975, however, banks with DTL of less than Rs. 25 crores were allowed to pay 0.25 per cent higher on term-deposits with maturity of 5 years and less. From March 2, 1981, the higher rate was allowed to be paid only on term-deposits of less than 3 years maturity.

(iii) From October 2, 1975, the Regional Rural Banks (RRBs) were permitted to pay on deposits accepted by them, interest higher by 0.50 per cent per annum than those prescribed for specified categories of deposits for periods upto 5 years. This was further amended to cover deposits with a maturity of more than 5 years also effective January 1, 1977, but from June 1, 1977 RRBs were allowed to continue to pay 0.50 percentage point more on fixed deposits upto five years only. From March 2, 1981, the higher rate was allowed to be paid only on term-deposits of less than 3 years maturity.

(iv) The central co-operative banks and the primary (urban) co-operative banks are allowed to pay, at their discretion, on fixed deposits additional interest of 0.50 per cent and 1.00 per cent, respectively. As regards State co-operative banks, while earlier all of them were allowed to pay 0.25 per cent more, from September 13, 1979 State co-operative banks in the Union Territories and in Tripura, Nagaland and Meghalaya are allowed to pay 0.50 per cent more, while banks other than those specified above are allowed to continue to pay 0.25 per cent more than the interest rate payable by commercial banks.

(f) A ceiling of 9.00 per cent was imposed on the lending rates of the Indian scheduled banks with aggregate DTL of Rs. 50 crores or above and all the foreign scheduled banks with effect from September 25, 1964; the rate was raised to 10.00 per cent from February 17, 1965, but reduced to 9.50 per cent from March 2, 1968. Since January 21, 1970, the ceiling on lending rates was withdrawn.

(g) With effect from March 15, 1976, the Bank had fixed the maximum lending rate to be charged by scheduled commercial banks, having DTL of Rs. 50 crores and over at 16.50 per cent. Banks with DTL of Rs. 25 crores and above but less than Rs. 50 crores were allowed to charge one percentage point higher (i.e., 17.50 per cent) than the ceiling rate of interest. The rate was inclusive of the 7 per cent levy on interest income from advances. The ceiling rate was not applicable in the case of banks with DTL of less than Rs. 25 crores. With the abolition of the tax of 7 per cent on interest income earned by banks, the maximum lending rate chargeable by banks was reduced to 15.00 per cent for banks with DTL of Rs. 25 crores and over and was fixed at 16.00 per cent for banks with DTL of less than Rs. 25 crores with effect from March 1, 1978. Effective September 13, 1979, the maximum lending rate on short-term advances was raised from 15.00 per cent to 18.00 per cent in respect of banks with DTL of Rs. 25 crores and above and from 16.00 per cent to 19.00 per cent in respect of banks with DTL below Rs. 25 crores. Certain categories of advances e.g., advances to priority sectors, export credit, credit to sick units, credit to Food Corporation of India, etc. were exempted from the increase in lending rates.

Consequent to the reimposition of the tax of 7 per cent on interest income of banks in 1980 the maximum lending rate inclusive of interest tax chargeable by banks was enhanced from July 1, 1980 from 18.00 per cent to 19.40 per cent in respect of banks with DTL of Rs. 25 crores and above and from 19.00 per cent to 20.50 per cent in respect of banks with DTL below Rs. 25 crores. Effective March 2, 1981, distinction among banks on the basis of DTL was abolished and a common ceiling rate of 19.50 per cent was introduced.

(h) In the revised interest rates structure which became effective from March 2, 1981, no general minimum lending rate was fixed but a broad framework of interest rates was provided with fixed rates on certain types of advances and ceiling rates on other types of advances. Wherever ceiling rates were prescribed, the rate of interest fixed for the preceding advance would serve as floor rate for advances in that category.

Statement 52:

The Government of India cancelled its credit guarantee scheme for small scale industries as at the close of business on 31st March 1981 and the Deposit Insurance and Credit Guarantee Corporation (DICGC) acting as agent of the Government, in the place of the Credit Guarantee Organisation, exercises the rights and discharges the obligations of the Government arising out of or accruing under that scheme upto the date of its cancellation. Accordingly all credit facilities covered under that scheme and in respect of which a default had occurred prior to its cancellation will continue to be covered under that scheme. All claims pending as on the date of cancellation as also those preferred subsequently in respect of such defaulted accounts are to be first met by the Corporation and reimbursement obtained from the Government periodically.

The credit institutions have been asked to furnish a complete list of all advances in default as on 31 March 1981, which continued to be the liability of the Government of India. However, the information received so far from participating institutions shows the accounts in default as on 31 March 1981 at Rs. 194.71 crores. (This information, however, is incomplete as over 5,800 branches of credit institutions have yet to report the figures). These advances as stated earlier, will continue to be governed under the terms and conditions of the Government's scheme (since cancelled) and guarantees can be invoked in respect of them any time in the future, there being no time limit therefor.

In view of the cancellation of the Government's scheme and to provide continuity of cover to advances previously covered by the cancelled scheme but not in default on March 31, 1981 and also to provide guarantee cover to fresh credit facilities sanctioned to small scale industrial units, the DICGC introduced its own guarantee scheme called Small Loans (SSI) Guarantee scheme, 1981 with effect from April 1, 1981.

The number of participating credit institutions under the corporation's new scheme was 362 as on 31st December 1983. The guaranteed advances to small scale industries as on June 30, 1983 amounted to Rs. 4153.73 crores which showed an increase of Rs. 331.60 crores as compared to the guaranteed advances as on June 30, 1982.

As on the date of cancellation of the scheme, claims amounting to Rs. 98.18 crores were pending with the erstwhile Credit Guarantee Organisation, and were transferred to the DICGC for disposal. During the year 1983, 7878 claims for an amount of Rs. 20.08 crores were received (in respect of accounts in default upto March 31, 1981) while 19,469 claims for Rs. 26.78 crores were disposed of. As on December 31, 1983, 17,701 claims amounting to Rs. 97.45 crores were pending.

Statements 78 to 80:

The receipts and disbursements given in these statements differ from the figures shown in the Annual Financial Statement (Budget of the Central Government) mainly because in these statements data on revenue account exclude figures relating to Posts and Telegraphs Department, Railways and States' share of the Union excise duties. Defence expenditure is shown on a net basis under revenue expenditure. In Capital Account, receipts other than market loans and external loans are shown on a net basis. Net variation in Treasury Bills is treated as financing item of surplus/deficit.

The figures for Revenue and Capital Accounts given in these statements are not comparable with those given in the Reports on Currency and Finance prior to 1973-74 due to changes in the accounting classification of the Budget. For a brief discussion on the new classification, please refer to Chapter V on 'Budgets and Public Debt' of the Report on Currency and Finance for 1973-74.

Statement 80:

Data from 1974-75 onwards cover expenditure on food subsidy under the head 'agri-

culture and allied services' as part of economic services and relief on account of natural calamities as part of 'social and community services' under developmental expenditure; in earlier years, data on the expenditure on these items were included under the head 'other expenditure' as part of non-developmental expenditure.

Statement 87:

The statement is prepared from the data given in the Finance Accounts of the Union Government and the Explanatory Memorandum on the Budget of the Central Government. In the Memoranda on Central Budgets prior to 1976-77, data on certain items like capital outlay on important departmental undertakings and investment in major autonomous corporations were separately shown and data on External Debt were shown country-wise and institution-wise. From 1976-77 onwards, these items are clubbed together and not shown separately by corporation/institution/country division. Consequent modifications have been made in this Statement beginning with the Report on Currency and Finance for 1975-76.

Statement 91:

Debt of State Governments which used to be shown as per the old classification under the following heads: (i) Permanent Debt, (ii) Floating Debt, (iii) Loans from the Centre, (iv) Other Debt and (v) Unfunded Debt has been reclassified from the year ended March 1973 onwards as recommended in the Second Report of the Team on Reforms in the Structure of Budget and Accounts. Outstanding debt liabilities for the years subsequent to March 31, 1972, are, therefore, not strictly comparable, item by item, with those for the earlier years. Under the new classification, the major heads are: (i) Internal Debt comprising of (a) Market Loans and Bonds, (b) Ways and Means Advances from the Reserve Bank of India and (c) Loans from Banks and Other Institutions, (ii) Loans and Advances from the Central Government and (iii) Provident Funds, etc.

(i) Internal Debt:

(a) *Market Loans and Bonds:* This item is identical with the item 'Permanent Debt' in the

old classification and comprises current and expired loans floated in the market and compensation bonds issued in connection with abolition of Zamindari and Jagirdari and Housing bonds, etc.

(b) *Ways and Means Advances from the Reserve Bank of India:* This item corresponds to 'Floating Debt' of the earlier classification except for the exclusion now of cash credits from the State Bank of India and other commercial banks and represents in the new classification ways and means advances and overdrafts (repayable within seven days) from the Reserve Bank of India. Figures in the statement against this item prior to March 31, 1973 represent outstanding 'Floating Debt' of the old classification.

(c) *Loans from Banks and Other Institutions:* This item corresponds to 'Other Debt' of the earlier classification, but now includes cash credits from the State Bank of India and other commercial banks not covered in 'Other Debt', and represents Cash Credits and loans from the State Bank of India and other commercial banks, National Rural Credit (Long-Term Operations) Fund of the National Bank for Agriculture and Rural Development, National Co-operative Development Corporation, Life Insurance Corporation of India, Employees State Insurance Corporation, Khadi and Village Industries Commission and others. Figures against this item prior to March 31, 1973 represent outstanding 'Other Debt' under the old classification.

(ii) *Loans and Advances from the Central Government:* This item is identical with 'Loans from the Centre' in the earlier classification and comprises loans and advances from the Central Government for Plan as well as non-Plan purposes including loans against Small Savings collections.

(iii) *Provident Funds, etc.:* This item is identical with 'Unfunded Debt' of the old classification and includes State Provident Funds, Insurance and Pension Funds, Trusts and Endowments, etc.

The exports figures for the period November 1970 to March 1973 are based on original copy of the shipping bills and for the rest of the period, they are based on the finally passed shipping bills.

Total figures shown in Statements 100 to 103 take into account recent revisions for which detailed break-up are not available. Revisions in the total figures are carried out by D.G.C.I. & S. as and when further details become

available. Commoditywise totals in statement 106 may not tally with corresponding figures in statement 101 due to different category classification

In Statement 101, the break up of the items, Essential oils and perfume materials, toilet, polishing and cleansing materials have been included under chemicals. Crude oil and petroleum products are shown under Mineral Fuels, Lubricants and related materials. In Statement 106, the item Jute Hessian Jute carpet backing and Jute sacking have been clubbed under item Jute and Jute manufactures. For the new items viz., 1) chemicals — total of which a) Dyeing, tanning and colouring materials, b) Essential oils and perfume materials, toilet polishing and cleansing preparations.

In Statement 102, the items covered under the Group "Crude Materials, Inedible, except fuels" at present, account for only a comparatively smaller value in relation to the group's total. Therefore, items like man-made fibres and waste of man-made fibres, synthetic fibres suitable for spinning, metallic ferrous ores and metal scrap, crude fertilizers and crude materials, which account for a substantial portion are included in the Group. Copra, covered under this Group earlier, has been deleted effective this year, as the figure reported for this commodity is consistently negligible. So also hides and skins and furskins (raw), wool and other animal hair, lac etc. are deleted from Statement 101.

Statement 115:

India's official foreign exchange reserves comprise holdings of foreign currencies, gold and Special Drawing Rights (SDRs). Foreign currency and gold holdings are given in rupees, the method of valuation being as indicated in the footnotes to the statement. SDR holdings are, however, given in units of SDR. As of March 31, 1971, one SDR was equal to one U.S. dollar. Effective July 1, 1974, the value of SDR was determined daily by the Fund on the basis of a basket of 16 currencies. Beginning July 1978, the composition of the basket of

currencies and the weight assigned to each currency was changed, though the number of currencies in the revised basket was retained at 16. Since January 1, 1981, the SDR valuation basket consists of the currencies of the five member countries having the largest exports of goods & services during 1975-79, i.e., U.S. dollar, Deutsche mark, French franc, Japanese yen and Pound sterling.

As on end-March 1984, one SDR was equivalent to U.S. \$ 1.06420, the average for the month being U.S. \$ 1.06398. On end-June 1984, the rate was U.S. \$ 1.03121 per SDR with the average for the month at U.S. \$ 1.03967.

Data on the revised basis are available from 1976 onwards.

FUNCTIONS AND WORKING OF THE RESERVE BANK OF INDIA

The fourth edition of the book, 'Functions and Working of the Reserve Bank of India' has been published recently. This is a thoroughly revised edition of the book, the third edition of which was published in 1970.

The new edition sets out the position as at the end of June 1982, but certain important changes in the Bank's functions, resulting from the establishment of the National Bank for Agriculture and Rural Development in July 1982 have also been mentioned. The developments since 1970 are covered in detail, while historical information is provided in certain areas to facilitate a better understanding of these developments.
