

The Reserve Bank of India in collaboration with OECD and the World Bank will host the Regional Dissemination Conference on Financial Education to present the work of the Russia/OECD/World Bank Trust Fund on Financial Literacy and Education and address specificities from India and the Asia region, notably national strategies for financial education, the measurement of financial literacy and methods for programme

The Central Bank Risk managers' Conference (CBRMC) is an annual event and provides a unique opportunity for central bank risk managers to build and maintain an informal network to discuss issues related to central banks' financial risk management. After the first conference held in 2004 by the Bank for International Settlements (BIS), Basel in Switzerland, these annual conferences have been organised by various central banks

The Reserve Bank of India organised the First International Research Conference (FIRC) in February 2010 on the occasion of its Platinum Jubilee Year along with a series of other knowledge-sharing events. These initiatives were aimed at making the Reserve Bank a more responsive, relevant, professional and effective public institution. To continue the knowledge-sharing events, it was decided that the International Research
